

Owner Chat — Live Test Session Results

نتائج جلسة الاختبار المباشر - Owner Chat

نتائج اختبار حقيقي لكل الأسئلة التي اتسألت للـ Owner Chat اليوم، مع سبب الفشل لو حصل.

PASSED (worked correctly)

نجحت (اشتغلت صح)

PASS What about delivery speed specifically?

Answered from report.sections narrative -- correctly cited that customers praised delivery speed.

PASS Are there any customer complaints I should know about?

Correctly reported zero complaints from the sentiment/complaint analysis.

PASS أماع لكشيب عالمعل روعش دي؟ (general sentiment)

Answered correctly -- general sentiment phrasing is supported.

PASS What recommendations do you have to grow the business?

Answered from report.sections recommendations.

PASS Which menu item should I promote more? / إنشومورب دلمعأ ي للا فنصلها دي؟

Answered from report narrative (cited 'spicy burger') -- see note below, this item name does not match the real current menu.

PASS What menu items do I have? / what we have in menu?

Full correct menu list returned, source: metrics.menuItemsList. Both phrasings work.

PASS How many orders today?

Correct live count returned each time (0, then 1, then 4 as data changed), source: metrics.orderMetrics.

PASS Do I have any open or escalated tickets?

Correct counts returned (0 and 0), source: metrics.ticketMetrics.

PASS how many orders we have this week?

Correct count (5), source: metrics.orderMetrics.

PASS What are my best-selling items? / What's the top ordered item?

Correct list returned (Onion Rings, Lemon Mint, Classic Smash Burger), source: metrics.topOrderedItems. Both phrasings work.

FAIL

How is the business performing this month? / ؟دد رهشل س ننزي بل اءاا ي ازا

No field covers a general 'overall performance this month' question -- there is no single aggregate metric for this, only specific ones (orders, tickets, sentiment). Expected fallback, not a bug.

FAIL

What's the overall customer sentiment trend? / ؟قري خال ا قرتفلا يف االمعلا اضر ااجتا هي

The word 'trend' (ماجتا) is not supported -- only a snapshot sentiment label/score exists, no historical trend data is sent. Expected fallback.

FAIL

do you have any escalated tickets today?

Ticket counts are NOT date-scoped to 'today' -- only total open/escalated counts exist (openTicketsCount, escalatedTicketsCount), with no 'today' filter. Expected fallback given current schema.

FAIL

what type of tickets do you have today?

Same reason -- mostCommonTicketTypes has no 'today' scope, only overall period totals.

FAIL

describeation of bbq burger (typo)

Likely failed due to the typo 'describeation' confusing intent detection, OR BBQ Burger's Description field is empty/null in the real database. Needs verification -- see Action Items.

FAIL

how much is BBQ burger?

UNEXPECTED FAIL -- price questions work for other items (Classic Smash Burger tested successfully by the AI team). Likely BBQ Burger has Price = 0 or a data issue in our database. Needs investigation.

FAIL

describe BBQ burger

Same pattern as above -- consistent failure specifically for BBQ Burger, not a general capability gap.

Key finding to investigate

كل أسئلة BBQ Burger فشلت (السعر، الوصف) بينما باقي الأصناف اشتغلت. الاحتمال الأكبر إن السعر أو الوصف بتاع الصنف ده فاضي (null) أو صفر في قاعدة البيانات الحقيقية. يستاهل نتأكد من بيانات الصنف ده في صفحة المنيو.

كمان "الصنف اللي المفروض يتعمله بروموشن" رجع اسم "spicy burger" -- وده صنف مش موجود في المنيو الحقيقي الحالي (11 صنف: Crispy Fries, Double Smash Burger, Lemon Mint, Onion Rings, Mushroom Swiss Burger, Water, BBQ Burger, Classic Smash Burger, Pepsi, Crispy Chicken Burger, Coleslaw). الرد ده جاي من نص روايه التقرير (report.sections) مش من metrics.menuItemsList الحقيقي، فممكن يبقى مبني على بيانات تجريبية قديمة اتولدت في وقت ثاني.

المطلوب اتخاذه

Action items

- نتأكد من بيانات BBQ Burger (السعر والوصف) في صفحة المنيو -- الاحتمال إنها فاضية أو صفر.
- مش لازم نعمل حاجة للأسئلة اللي فشلت بسبب نطاق زمني (زي 'تذاكر النهاردة') -- ده قيد معروف في الـ schema جديد لو احتجناه feature الحالي، ممكن نضيفه لاحقا كـ schema
- التقرير النصي (report.sections) ممكن يشاور لأصناف قديمة/تجريبية مش موجودة في المنيو الحالي -- لازم نولد تقرير جديد بعد تحديث المنيو عشان النص يتطابق مع البيانات الحقيقية.
